

FOX FRESH-MESH®

When a 100% mesh bag is what you need, the Fox Fresh-Mesh® bag is what you'll want. Consumers are instantly drawn to the high quality combination of graphics and color coordinating CLAF® mesh fabric. And not only do products just look better in a Fox Fresh Mesh®, but they stay fresh longer once consumers take them home.

Benefits:

- Ample space for nutritional facts, UPC codes and, of course, the colorful art of labeling your brand name
- Multiple mesh colors to enhance both product visibility and color
- The one dimensional CLAF® mesh fabric design does not leave skin damaging indentions left by many woven mesh products
- Fox Fresh-Mesh® extends shelf-life by letting the product breathe better because moisture and air can easily pass throughout the bag

Size availability
1-15 lb.
(.45-6.8 kg)
