

# LENO

**Fox Packaging was one of the original leno converters and we are still a top U.S. manufacturer of bulk Leno bags.**

We provide 100% in-house leno conversion, printing, sewing, and final manufacturing, adhering to stringent specifications for material weight, quality of dye pigments, resins and bag strength.

Ask us how we can accommodate your machinery requirements with our custom bag widths. We can also convert leno bags to a "pillow top" design to optimize pallet loading.
