

Haith

BOX HANDLING SYSTEMS

Down eject box tipping system to give high volume tipping on packing lines
(PATENTED DESIGN)

In recognising the many varied requirements for the tipping of produce boxes and palletainers, Haith have developed tippers built to handle all sizes of box up to 5 tonnes in weight. The construction, finish and degree of guarding can be varied to suit the particular application and environment. *Illustrated are some of our standard range of tippers any of which we are happy to modify for a particular application, or indeed to under-take the design and manufacture of specialised units.*

The range of box handling equipment manufactured by Haith has over the years acquired a reputation for quality, performance and reliability which is second to none.

BOX TIPPLER WITH EVEN FLOW FEEDER

Fully automatic control for continuous feeding of packing lines

PERFORMANCE & RELIABILITY

BOX & BAG TIPPLER Gentle and safe tipping of jumbo bags

**HYDRAULIC & MANUAL BAG CLAMPING SYSTEM * AUTOMATIC TIP CYCLE * EVEN & GENTLE CROP DISCHARGE*

BAG TIPPING

STORE HOLDING HOPPER

RE-FILLING INTO BOXES

ROTATIP SIDE EJECT BOX TIPLERS (PATENTED DESIGN)

Robust and reliable design built to an industrial standard to give years of trouble free service.

Ideal for
**HIGH VOLUME
STORE UNLOADING**
Or for
**PRODUCTION
LINE FEEDING**

MACHINE TIPPING 2.5 TONNES BOXES

- NO HYDRAULICS
- INVERTS LEAVING NO PRODUCE IN BOX
- VERY GENTLE HANDLING
- FULL WIDTH FORWARD FACING DISCHARGE BELT OR IN LINE OPTION
- HANDLES FROM 1 TO 2.5 TONNE BOXES
- MOBILE OR STATIC SYSTEMS

AUTOMATIC BOX TIPLER WITH CROSS CONVEYOR

**HAITH ROTATIP
BOX TIPLER**
For compact and gentle box handling
PATENTED

AUTOMATIC TWIN TIPLING SYSTEM
To give continuous feed

Regulated flow of crop

**CENTRE
PIVOT
Box rotator**
