## AUTOMATE YOUR OPERATION WITH A WATER RESISTANT WEIGHING SYSTEM

- ▲ The Newtec line of precision weighers can release products in both weighments and count, reducing the amount of giveaway in your product.
- ▲ These state-of-the-art automation solutions are constructed with brushed, stainless steel.
- ▲ All conveyors use food-grade belts.
- ▲ This equipment can be washed down for easy cleaning and service.

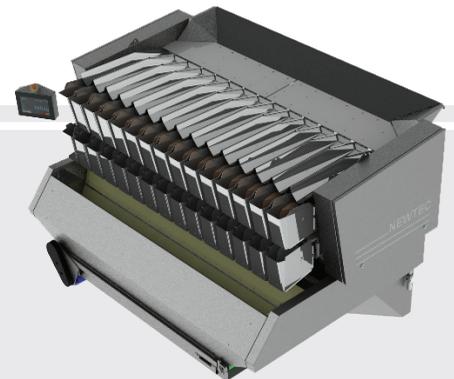

Automated packing equipment can be recommended once your packaging design has been selected
