

Flexible & Fresh **Potato** **Packaging**

Unique light-blocking technology that
prolongs potato shelf-life.

The **Combo Ultra Shield® bag** directly combats food waste by blocking UV light with its two-layer black and white poly film side that prevents nearly 100% of visible light and 90% of ultraviolet light, dramatically decreasing potato greening and ensuring a longer shelf-life.

Fox Fresh Mesh® Combo bag

Can be used for merchandising potatoes in a high-turnover environment

Fox Fresh Mesh® Wicketed bag

Commonly used for sweet potatoes and features a draw-tape closure

Fox Fresh Mesh® and Fox Stand-Up® bag

Perfect for bite-size and fingerling potatoes

Perfect for vertical form, fill, seal packing lines

Fox Fresh Mesh Fully Recyclable

Medium to High Speed Packaging Solutions

Space-friendly footprints to accommodate **packinghouses of all sizes.**

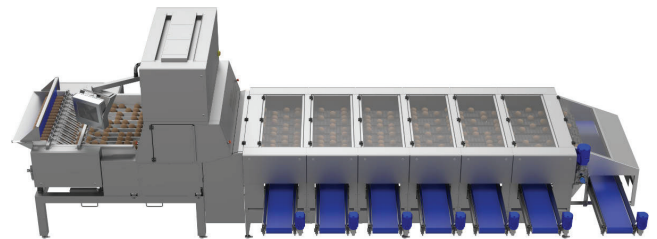

FSPB2 & FSWB3

Can process bite-size potatoes up to 6lbs.

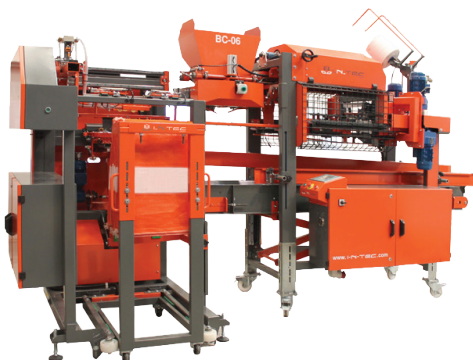

FSWB3

Can handle various pack size and grades of potatoes

The **Celox P-UHD by Newtec** is an optical sorting machine available in 12 and 4 lane configurations. It simultaneously sorts by quality, size, and shape – eliminating the need for pre-grading.

Need a bulk packaging solution?

Our partner, INTEC, provides a Leno bagger that can automate bulk packing and is compatible with a palletizing system.

Vegetable Handling Systems

Our partner, Haith, is a leader in agricultural engineering, offering mechanical solutions to washing, polishing, grading, and packinghouse systems that help you meet your goals.
